PROJECT CARD – Summerhill Primary School, Tipton

Brief: CCPD were employed to undertake internal and external decoration works. Internal works comprising standard interior decoration and parquet flooring refurbishment and external works comprising of fencing, external furniture.

Project Value: £30,000

Client: Harper Construction

Completion: October 2013

The project was completed over two phases, allowing the school to gradually take occupation as areas were completed. This required co-ordination between all trades to ensure the smooth handover of critical areas on a week by week basis.

The specification for works utilised Johnstones Trade materials, specifically their Acrylic Durable Matt product for walls to ensure that the areas remain robust enough to withstand the wear and tear of day to day life within a primary school.

Although initial delays were experienced as a result of alteration to key envelope design decisions, the subsequent phased handovers were achieved week on week.
